

Hello, I'm Flora Moon

Remote • Portland, OR

hello@flora.cool • flora.cool

Experience

HubSpot • Senior Software Engineer

Remote • January, 2022 – October, 2023

- Led the effort to refactor over 10k lines of code from Javascript to Typescript.
- Developed a generic component library using React to enable quickly creating a new marketplace.

Evernote • Senior Software Engineer

Remote • April, 2020 – March, 2021

- Rebuilt the editor using ProseMirror to create a single cross-platform editor for mobile, desktop, and web.
- Integrated Google Drive into the editor to embed Google Docs, Sheets, Slides, and Forms.

Hearling • Founder & Solo Engineer

Remote • December, 2019 – Present

- Built a SaaS from scratch, hearling.com, using Postgres, Node, Express, React, and Stripe – serving over 3k free and 100 paid subscribers.
- Released an ad-supported text-to-speech website, soundoftext.com, using Mongo, Express, and React – serving 500k users per month.

Redbubble • Software Engineer

San Francisco, CA • September, 2018 – July, 2019

- Migrated product pages from a Ruby on Rails app to an Express and React microservice.

Leapfin • Software Engineer

Remote • February, 2018 – July, 2018

- Hired two new engineers to grow the engineering team to 5 people.

Asynchrony Labs • Data Engineer

Saint Louis, MO • August, 2015 – February, 2017

- Developed an ETL pipeline for a Fortune 500 client in Scala, Play, Neo4J and Apache Kafka.

Education

University of Missouri • B.S., Computer Science

Columbia, MO • 2015

Projects

flora.cool – A chatbot built to teach myself draggable components using just React, html, and css.

scape.fashion – A passion project for my favorite video game involving data scraping and modeling, an ETL pipeline, Node & Express API, and React frontend.

Summary, Skills & Interests

Summary – Transitioning to Data Engineer with an 8-year background in Software Engineering.

Skills – Python, SQL, Scala, Java, Kafka, Typescript, Javascript, React, Node, Express, Git, Bash, CLI, Ruby, Rails, Docker, AWS

Interests – D&D, gaming, coffee, yoga, reading, sustainability, ASL, queer rights, neurodivergence
